

Mask Procedures

For any employee wearing a provided mask the following procedures need to be followed.

1. Wash hands before putting on your mask.
2. Remove mask from the bag after washing hands. Check that the mask is free from rips, tears, holes or ragged edges. Otherwise, ask manager for another new mask.
3. Put mask on as described by mask direction making sure that the mask fits snugly over your face.
4. Avoid touching the mask while wearing the mask. If you touch the mask while wearing, remove your gloves, wash your hands and put on a new pair of gloves.
5. During a break, you should remove the mask and place it in a dry, clean place or wear it around your neck. Wash hands after removing mask and after putting the mask back on.
6. Crew should wear the same mask for their entire shift unless the mask becomes damaged or soiled.
7. When you have completed your shift, you should remove the mask and discard it immediately. Wash hands after removing the mask.
8. Do not share the mask with anyone else.
